PLEASE NOTE:

- All references to the New Brunswick NJ CS2K switch are associated with CLI code NBWKNJNBPS1/GT1 and will not be repeated throughout this notice.
- All references to the New Brunswick NJ C20 switch are associated with CLI code NBWKNJNBPS2 and will not be repeated throughout this notice.

**Description of the Planned Network Change(s):**

The Verizon New Brunswick NJ CS2K switch located at 18 Paterson St., New Brunswick, NJ 08901, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon New Brunswick NJ C20 switch, located at 18 Paterson St., New Brunswick, NJ 08901. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

**Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):**

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the New Brunswick NJ C20 switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the New Brunswick NJ CS2K switch will be required to reposition the codes to the New Brunswick NJ C20 switch.

All ASRs for the New Brunswick NJ C20 switch must be received no later than April 15, 2020 in order to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the New Brunswick NJ CS2K switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the New Brunswick NJ CS2K switch (**on or after May 15, 2020**). This will serve to guide interconnect re-routes of traffic for the native codes on the eight (8) end offices currently served by the New Brunswick NJ CS2K switch to reflect the New Brunswick NJ C20 switch as the new home switch. All ASRs for the New Brunswick NJ C20 switch must carry the project code of **NBWKNJNBPS2**.
